I was browsing through your website and there I saw **Internship at CLIX-2017** in opportunities section that completely grabbed my attention. Seems like your prestigious firm has laid out a red carpet for dreamers like me! I'm not sure how well this letter shall reach out to you, but I am definitely trying my luck.

Here are a few reasons, I feel, I fit perfectly in to this mould. I hope that you find them convincing enough to offer me a chance to showcase my talent for the opening(s) that you have listed.

I have had a little bit of media exposure. In the last three years I have worked as an intern reporter as well as i pursued three internships. Ways of communicating by writing is what I wish to master and strongly hold the belief- words, if written in the right manner work better than words spoken. A resume, unfortunately, cannot do justice to the plethora of experiences and adventures that the creative journalist in me has lived!

Internship Summary:

- Worked in "**Doordarshan Kendra, Srinagar**" as an intern from March 2016 to April 2016.
- Worked in ASCO Studio for **Amity University Walkthrough Project** as a production assistant from May 2015 to June 2015.

Past Experience:

- ❖ Established a startup online journal “**Behind The Screen**” in October 2012, with a group of 3 people.

Few major highlights:

- Conducted a personal interview with **Bashisht Narayan Singh** {Rajya Sabha MP & Bihar state president JD (U)}.
- Conducted a personal interview with **Syed Shahnawaz Hussain** (Ex-cabinet minister & spokesperson BJP).
- Conducted a personal interview with **Asif Mohammad Khan** (M.L.A Okhla, New Delhi).
- Conducted a personal interview with **Dr. Arun Kumar** (Lok Sabha MP & Bihar state president RLSP).
- Worked as a coordinator in "**Sounds Of Freedom**" a musical concert supported by UN Women in March 2015.

Key Responsibilities Handled:

- Worked as a core member in organising committee of university fest "**Amity Youth Fest 2016**".
- Worked on a reporting project "**Aftershock Nepal**" facilitated by **Bournemouth University, England** in collaboration with **Amity University, India & Kathmandu University, Nepal**.

It would be a great pleasure to receive a reply from your end, not for any other purpose but to challenge or test me on grounds of creativity and passion that I believe I have, resting inside me.

I look forward to hearing from you soon.

Yours sincerely,
Muzzammil Imam
